

Java Assignments - Loops & If-Else

Assignment 1: Even or Odd Numbers

Problem Statement

Write a Java program that accepts an integer N and prints all numbers from 1 to N. For each number, print whether it is Even or Odd.

Input Format

A single integer N.

Output Format

Print each number followed by Even or Odd.

Test Case 1

Input

5

Output

1 -> Odd
2 -> Even
3 -> Odd
4 -> Even
5 -> Odd

Test Case 2

Input

8

Output

1 -> Odd
2 -> Even
3 -> Odd
4 -> Even
5 -> Odd
6 -> Even
7 -> Odd
8 -> Even

Assignment 2: Multiplication Tables

Problem Statement

Write a Java program that takes an integer N and prints multiplication tables from 1 to N. Each table should be printed up to 10.

Input Format

A single integer N.

Output Format

Print the multiplication table for every number from 1 to N.

Test Case 1

Input

2

Output

Table of 1 ... up to 10

Table of 2 ... up to 10

Test Case 2

Input

1

Output

Table of 1

1 x 1 = 1

...

1 x 10 = 10

Assignment 3: Prime Numbers in a Range

Problem Statement

Accept Start and End as input and print all prime numbers in the given range (inclusive).

Input Format

First line: Start

Second line: End

Output Format

Print each prime number on a new line.

Test Case 1

Input

10 30

Output

11

13

17

19

23

29

Test Case 2

Input

2 15

Output

2

3

5

7

11

13

Assignment 4: Number Guessing Game

Problem Statement

The secret number is 27. The user has 5 attempts to guess it. Print Too Low, Too High, or Congratulations accordingly. If not guessed within five attempts, print Better Luck Next Time!

Input Format

Five integers representing guesses.

Output Format

Print the appropriate response after every guess.

Test Case 1

Input

10 20 27

Output

Too Low

Too Low

Congratulations! You guessed it.

Test Case 2**Input**

30 40 15 25 26

Output

Too High

Too High

Too Low

Too Low

Too Low

Better Luck Next Time!

Assignment 5: Strong Numbers in a Range

Problem Statement

A Strong Number is a number equal to the sum of the factorials of its digits. Accept Start and End and print all Strong Numbers in the range.

Input Format

First line: Start

Second line: End

Output Format

Print each Strong Number on a new line.

Test Case 1**Input**

1 200

Output

1

2

145

Test Case 2**Input**

100 500

Output

145
